

A BOD STUDIO PRODUCT

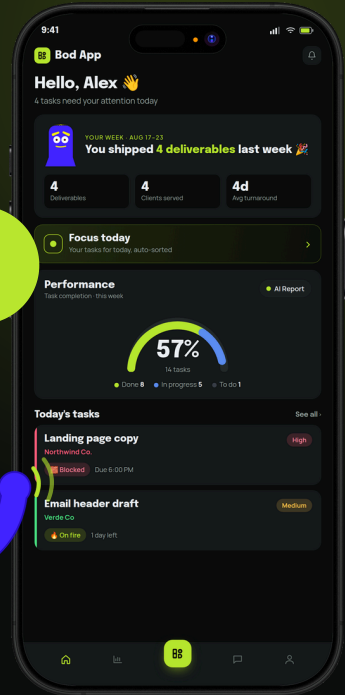

Bod App

The task app for creative agencies.

It handles the admin, so your team can do the work.

We love the work. It's the rest of it that wears a studio down: updating the status, chasing a reply, the morning standup, working out what to bill. So we built Bod App for our own team at Storibod first.

Come in. Let me show you around.

WHAT IT DOES

Your day, sorted

Everyone opens the app to a short, ordered list. Overdue first.

Say it, it's a task

Speak or type in English, Malayalam or Manglish. Who, what and when get filled in.

Follow-ups, drafted

When a client goes quiet, Bod App writes the nudge. You just send it.

The standup writes itself

What got done, what's moving, what's stuck. Ready to send.

Weekly wins

Every week starts with what the team shipped, so good work gets noticed.

Nothing goes unbilled

Finished work moves to a Ready to bill list for Finance.

HOW IT WORKS

1

Brief comes in

2

Gets assigned

3

Work happens

4

Client nudged

5

Billed

Start with a month free.

Up to 3 people, basic setup, on us.
