

**Bod App**

FREE-MONTH ONBOARDING KIT

FOR THE FIRST 30 DAYS

Make the free month count.

Everything the sales and setup team needs to take a new studio from “yes” to a team that uses Bod App every day, and a clear decision at the end of the month.

1. Welcome message

Send on WhatsApp the same day they say yes. Edit the names.

Hi [Name], welcome to Bod App! 🙌

Your free month starts today, for up to 3 people. We'll set everything up with you on a short call, so you don't have to figure anything out alone.

Before the call, could you send us:

- the names and roles of the people joining
- your main clients (and their brand colours, if you like)
- your logo

Talk soon,
[Your name], Bod Studio

2. Setup call checklist

30 minutes. Share your screen and set it up together.

AREA	WHAT TO SET UP
Workspace	Studio name, logo and accent colour. Light or dark theme.
People	Up to 3 people for the free month, with roles (admin, PM, team, finance).
Clients	Their main clients, each with its own colour.
Pipeline	Their stages, mapped from how they work today.
First tasks	Add this week's real tasks. Try one by voice together.
Next date	Book the day-7 check-in before you hang up.

3. The month, week by week

WHEN	GOAL	WHAT THE TEAM DOES	WHAT WE DO
Week 1	Get everyone in	Everyone logs in and adds their own tasks. PM approves the first requests.	Day-7 check-in: what's working, what's confusing?
Week 2	Make it daily	Team works from Focus. Try voice to task and task chat instead of WhatsApp for work.	Send a short tip each morning on WhatsApp.
Week 3	Let it do the chasing	Turn on follow-up nudges and the standup. Finance starts using Ready to bill.	Ask the PM how many follow-ups they wrote themselves.
Week 4	Read the results	Look at the weekly wins and analytics together.	Book the day-30 review call.

4. Day-30 review call

20 minutes. Their numbers, their decision.

Ask

- What would your team miss if we switched it off tomorrow?
- How many status messages and follow-ups did you stop writing?
- Did anything delivered go unbilled this month?
- What still feels clunky?

Show

- The weekly wins from all four weeks.
- Tasks completed and turnaround in analytics.
- The plan that fits their team size, and the monthly total.

5. After the call

Hi [Name], thanks for the review today. Here's the plan we talked about: [Plan], [number] people, ₹ [amount] a month. Reply "yes" and we'll switch it on, with nothing to set up again. If you'd rather not continue, that's completely fine, and thank you for trying it.
