

**Bod App**

A BOD STUDIO PRODUCT

# *Made in a studio, for studios.*

The task app we built for our own team at Storibod.

# We love the work.

The ideas, the shoots, the late edits that finally click.

# It's the rest of it.

Updating the status, again.

Chasing a reply from the client.

“Where’s that file?”

The 10 am standup.

Working out what to bill this month.

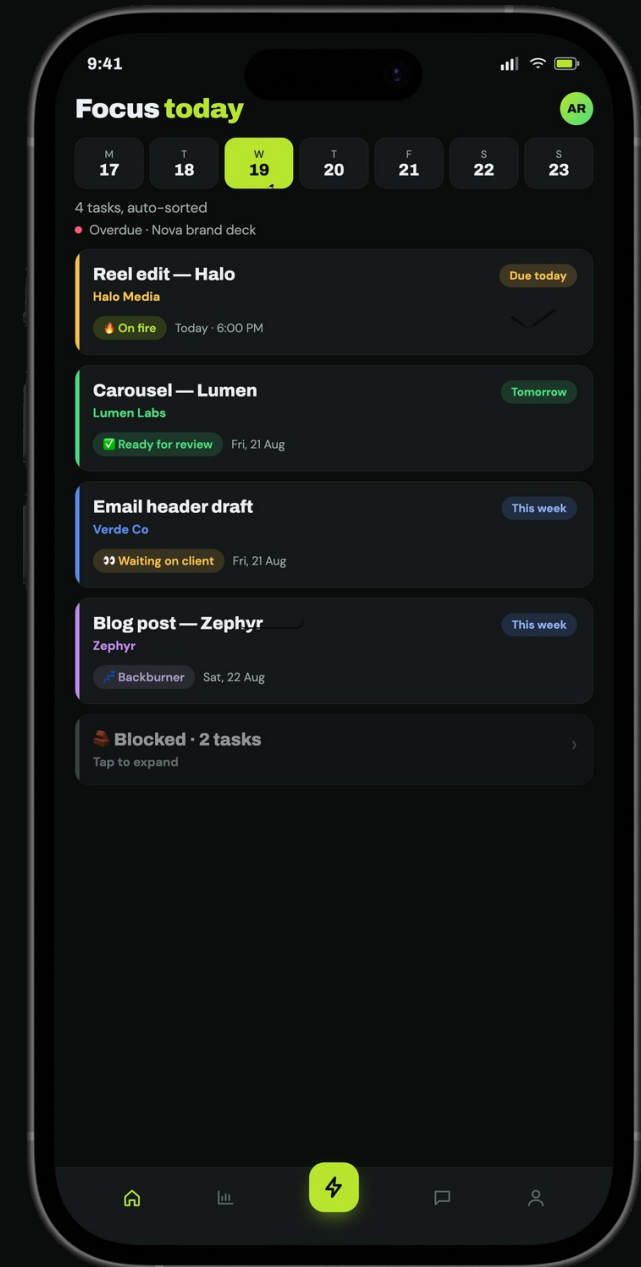

# So we built something to handle the rest.

We made it for our own team first. This is Bod Annan, who lives inside it.

9 am

# You open it and the day is already in order.

Overdue work first, then what's due today. Anything stuck waits quietly at the bottom.

*11 am*

# Say it the way you'd say it.

Malayalam, English or Manglish, by voice or text. It turns into a task with a name and a date.

## VOICE NOTE

“Naseem-inod OXY landing page copy Friday-il venam, high priority.”

Here's the task. Look right?

|          |                       |
|----------|-----------------------|
| Task     | OXY landing page copy |
| For      | Naseem                |
| By       | Friday                |
| Priority | High                  |

LOOKS GOOD

3 pm

# Still waiting on the client?

After two days, it writes the follow-up for you. You just send it.

OXY landing page copy

OXY Studios

Waiting on client · 2 days

A FOLLOW-UP, READY TO GO

“Hi! Just checking in on the landing page copy. Could we get your feedback by Thursday so we can wrap it up Friday?”

SEND

LATER

6 pm

# The standup is already written.

Read it, send it to the team, go home.

TODAY · 6:00 PM

## Your standup

### DONE

Reel edit for Halo

Carousel for Lumen

### MOVING

Email header draft for Verde

### STUCK

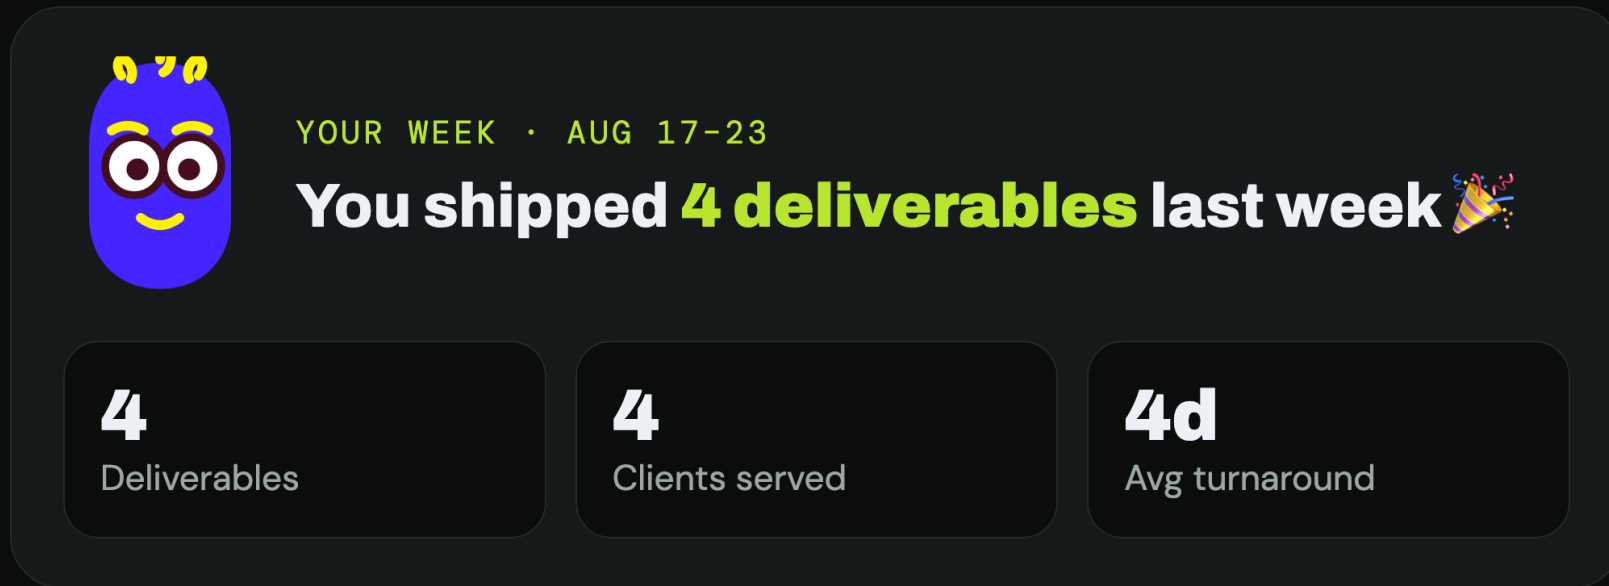

OXY landing page copy, waiting on feedback

SEND

COPY

*Monday*

And someone notices the good work.

Every week starts with what the team got done.

# The week feels lighter.

## LESS OF

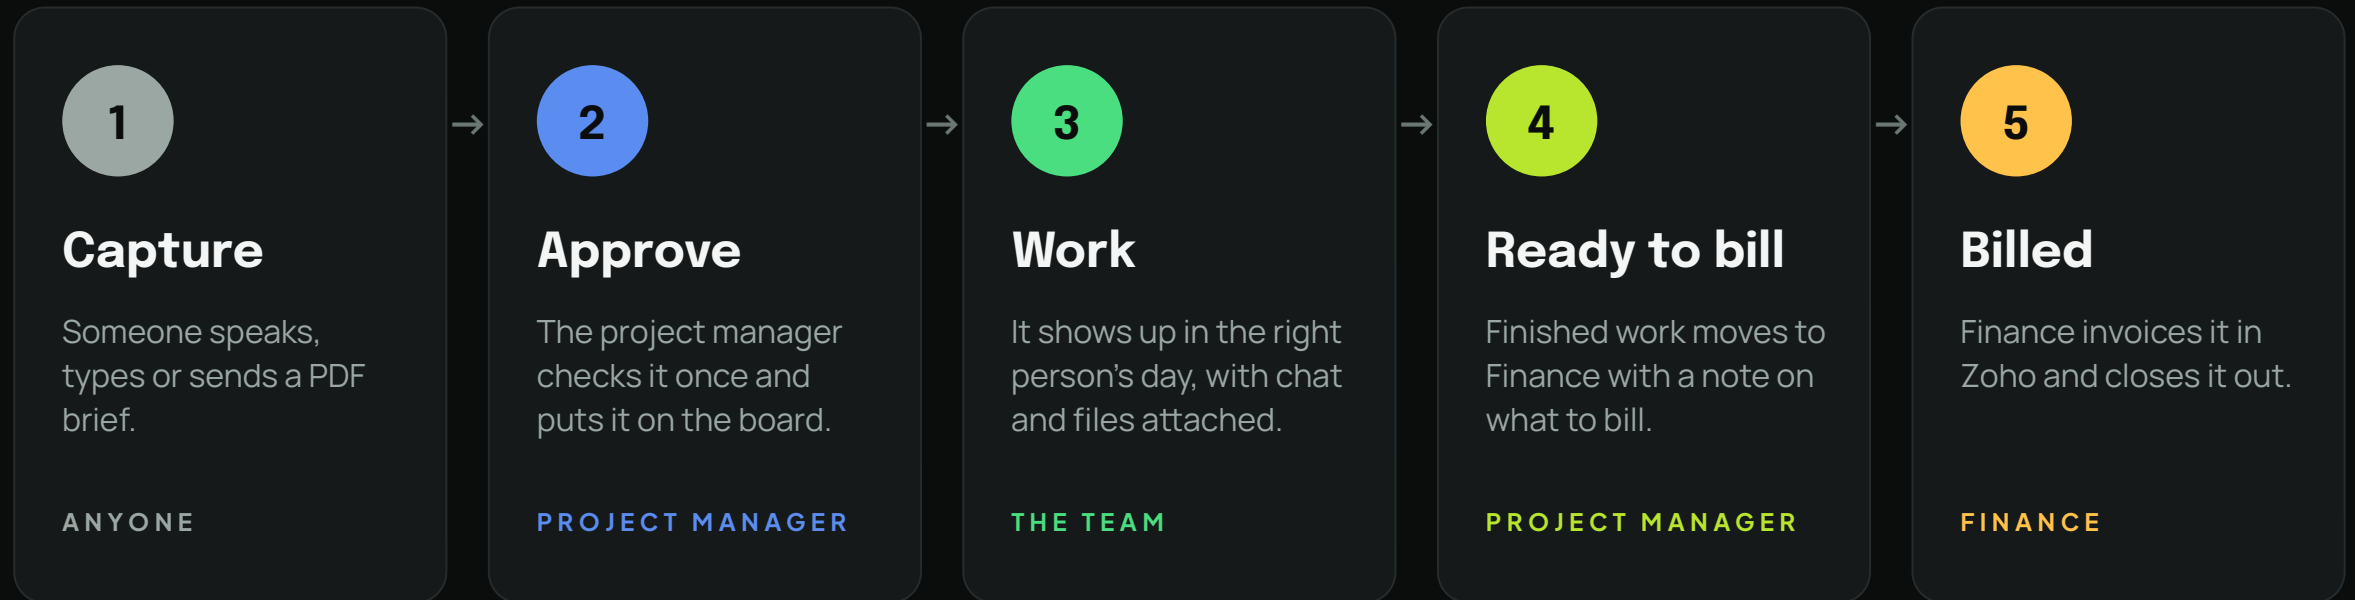

Any update?  
Just following up.  
Who's on this?

## MORE OF

The work itself.  
Clear heads.  
Leaving on time.

# From a message to a billed job.

Every task moves through the same five steps. Each person only sees the steps that are theirs.

Amounts and invoices stay in Zoho. Bod App only keeps track of what's ready to bill.

# What your team gets on day one.

## Tasks and boards

Owners, deadlines, priority and status.

## Voice to task

Speak in Malayalam, English or Manglish.

## Approval queue

Requests and PDF briefs, duplicates caught.

## Team and task chat

Voice notes, files and replies in one thread.

## Daily AI summary

A short read of your day, every morning.

## “What's next?”

Ask which task to pick up next.

## AI standup

One tap to post the day's standup to the team.

## Analytics

Shipped work and turnaround, in plain words.

## Clients and team

Every client, every person, every role.

## Google Sheets sync

Your task data, mirrored to a sheet.

## Notifications

Assignments, status changes and chat.

## Phone, tablet and web

iOS, Android and web, with home-screen widgets.

COMING WITH THE NEW UPDATE

# A calmer, friendlier app.

A full redesign, with the features from the story.

|                                                                                     |                                  |                                            |
|-------------------------------------------------------------------------------------|----------------------------------|--------------------------------------------|
|    | <b>Focus Queue</b>               | Your day, sorted every morning.            |
|    | <b>Bod Annan and weekly wins</b> | A small celebration of last week's work.   |
|    | <b>Task vibes</b>                | Long-press a task to say how it's going.   |
|    | <b>Client colours</b>            | Every client gets its own colour.          |
|    | <b>Follow-up nudges</b>          | A reply drafted after two days of waiting. |
|  | <b>Notes to tasks</b>            | Paste messy notes and get clean tasks.     |
|  | <b>6 pm digest</b>               | Your standup, written before you leave.    |

# Try it with your team for two weeks.

No card needed. Run real client work through it and see how the week feels.

IF YOU STAY · PER PERSON, PER MONTH

## Basic

**₹199**

The essentials for a small team.

## Advanced

**₹299**

Everything we use at Storibod.

## Premium

**₹499**

Set up around your own workflow.
